## Notes and Assumptions (**SCCG use only**)

- Data from TRACC accessibility modelling, Google maps journey planner, and map research
- Example location ('far as possible' from service, hence representing a conservatively high estimate of journey time) is random address on Weymouth Road, Moorside, SR3.
- West locality GP is The Village Surgery.
- Public transport 'before' is Black Cats 39 bus.
- Public transport 'after' is same as before
- 'Up to' figures represent a random location on the boundary of the CCG locality and the closest relevant service, eg. UCC, GP, or ED.

Across Sunderland info:

- Data references 10am-12pm time period.
- **This data references PT because it is the worst case. Car access is generally better.**
