

Patients' stories

Your story of your experience of Sunderland health services can help us make a difference.

The most complete story of a person's treatment comes from the patient and their relatives or carers.

We want to hear first-hand experiences of patients' treatment in Sunderland to help us learn from what has worked well and identify what we can improve.

If you have a story you want to share, contact Sunderland Clinical Commissioning Group on **0191 512 8458** or email: SUNCCG.sccg@nhs.net
